DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-62 and 74, drawn to a catalyst and process of making thereof.

Group II, claim(s) 63-73, drawn to a process for hydrating an olefin.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claims 1 and 48 are anticipated by or obvious over any of Kaeding US 4,581,215 (montmorillonite catalyst carrier having no aluminum) and/or Schlueter et al. US 5,208,195 (dealuminized montmorillonite catalyst carrier wherein aluminum is removed and the carrier is impregnated with phosphoric acid). Consequently, the special technical feature which links Groups I and II does not provide a contribution over the prior art, so unity of invention is lacking.

2. A telephone call was made to C. James Bushman on 2/3/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward M. Johnson whose telephone number is 703-305-0216. The examiner can normally be reached on M-F 6:30-4:00.
